

Warm Up: Pre-Calc

1/24

The chart at the right shows the distances in miles between 4 towns located along a straight road. For instance, the distance between town A and town B is five miles. What is a possible order in which the towns appear along the road?

	A	B	C	D
A	0	5	5	1
B	5	0	10	4
C	5	10	0	6
D	1	4	6	0

Feb 27-7:39 AM

W.A.L.T.:

Try to apply our new thinking to a different situation.

W.A.S.I.:

We can make connections and try our best. We are going to do our best work even if we don't think we are doing it right. I just need to see what you would do with this problem.

Mar 7-9:45 AM

In Class Work:

1) The Ferris Wheel Task -

- Do something, anything that you think
- Don't no do it.

2) Finish to turn in pg. 200 - 201 #5

Mar 7-1:33 PM

Today's Activities:

- Ferris Wheel Task

P.W. for tonight:
