

Warm Up: Algebra 2

9/12

Class discussion of graphs from the practice work.

Feb 27-7:39 AM

W.A.L.T.:

Read and interpret graphs.

W.A.S.I.:

Understand the information being shown in the graph and answer questions about that information.

Mar 7-9:45 AM

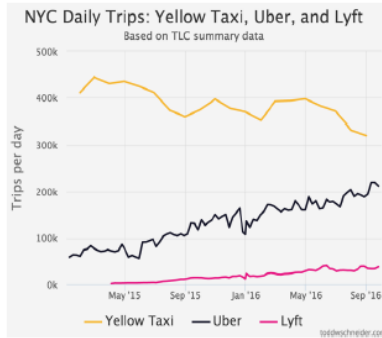

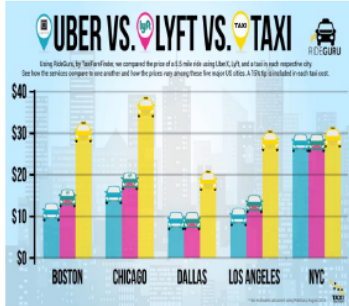

Graph of the Week
April 30-May 4, 2018

Analyze the graphs below and write a reflection on what you think the graphs are communicating to you. To guide you with your response, start with some observations.

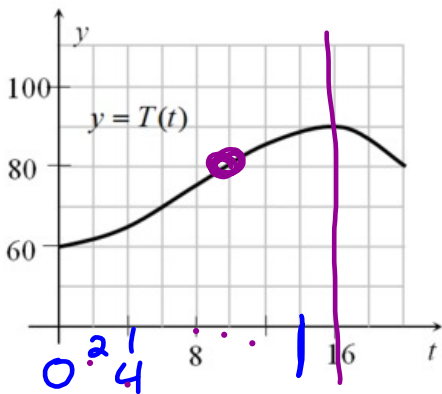

- What is the topic of each graph?
- What does the x-axis represent? What does the y-axis represent?
- What are some observations that you can make based on the graph?
- What do you foresee happening in the next 5 years?

Questions to ask when reading graphs:

- Is there an upward or downward trend?
- Are there any sudden spikes in the graph?
- What is being compared in the graph?
- What prediction can I make for the future?
- What inferences can I make about the graph?

Sep 11-7:12 AM

$T(14)$
 @ 2 pm the temp. is

Sep 11-7:55 AM

Today's Activities:

- Went over Graphs, talked about Warming and cooling

P.W. for tonight:

-

Dec 31-9:59 PM
